

Add Another Room feature

Your P2P player program can play in any Poker Pod room world wide. When you travel find local games to join, get an invite code and get Keys to the new game. Buy in and Cash out from the local host.

From the Lobby
Click the
ADD ANOTHER ROOM
Button

Get more Keys to the Poker Pod your in, you can play at several tables at the same time. *

To Join a new Pod:

You need a Poker Pod **5 digit invite code** - examples [32050, 32278, 32062]

The Host will supply an **IP number** - example [96.88.64.237] and an Invite code.

The “Add Another Room” panel requires both if you are joining a different Poker Pod. You need nothing to get more, same Pod Keys.

- Knockout Poker Player Program can be opened more than once separate Keys are required for every seat in P2P gaming.
- Each Key has it’s own Lock Box Drawer, accounts are separate in P2P gaming. Drawer to Drawer transfers are not possible.
- At Any location world wide Poker Pods provides a clean secure digital P2P cash game to play in.
